

## MADE TO LAST

*Working with only the most luxurious fabrics available for a sustainable and quality focused lifestyle.*

This collection is not for everyone, it is only for those who understand and share our values of creating tomorrow's vintage.

Inspired by the seasonal colours of northern Scandinavia; dark blue, light blue, red, grey & black, we are working with these colours in a sophisticated and timeless way.

Only the highest quality satins, twills & poplins are in focus for this Christmas delivery; the perfect gift to someone or for yourself.
